MegaNatural® BP is a patented FDA no-objection GRAS grape seed extract shown to help support blood pressure levels that are already within normal range, and to help support normal arterial function. MegaNatural supports healthy blood pressure levels in subjects with pre-hypertension.

The product is made in California from a special seed blend derived entirely from unfermented domestic red and white varietal wine grape seeds. The seeds are extracted with hot water, purified, concentrated and spray-dried with no carrier, resulting in a high phenolic, high ORAC grape seed extract powder without any preservatives. MegaNatural®-BP is ideal for use in supplements and in functional foods and beverages.

Human studies conducted at the University of California, Davis, Department of Preventive Cardiology showed that a 150-300 mg per day dose reduces systolic and diastolic rates after six weeks.
MEGANATURAL®-BP BEVERAGE REDUCED SYSTOLIC AND DIASTOLIC BLOOD PRESSURE IN PRE-HYPERTENSIVE SUBJECTS. AFTER WITHDRAWAL OF GRAPE SEED EXTRACT (GSE), BLOOD PRESSURE RETURNED TO PRE-STUDY LEVELS DEMONSTRATING EFFICACY OF THIS INGREDIENT.

At 6 weeks, daytime SBP reduced 7 mmHg in subjects that consumed MegaNatural®-BP beverage

At 6 weeks, daytime DBP reduced 3.8 mmHg in subjects that consumed MegaNatural®-BP beverage
